Love this painting

John Smith

This painting shows great sophistication and is a masterpiece of its times. ★★★★☆

It's Ok

Jane Doe

This painting doesn't really evoke much emotion in observers. It seems fairly lacking in context. ★★★☆☆

Project Information

At the moment, I am unsure as to what my project is going to be about. I am currently thinking about having it be about containing links
to help people in certain classes. The way it would work would be that the page would contain a list of classes, and per class, there would be
several links to websites that can help out students that need help with the material in the classes. I am also thinking about further subdividing
each class into several subtopics, for example if I made a section for CS 290, I would have a section for HTML, CSS, and one for PHP. As I continue to
come up with ideas, I will post them here.
